

## PRESS RELEASE

### **Samuel S. Hemingway joins as COO of Eagle Harbor Holdings, LLC.**

Bainbridge Island, WA, --- June 28, 2010 --- Eagle Harbor Holdings, LLC, a technology engineering developer and intellectual property licensor, announced today that investment banking and securities veteran Samuel S. Hemingway has been appointed Chief Operating Officer effective immediately. Mr. Hemingway adds a layer of senior management expertise to allow CEO Dan Preston to focus on corporate vision and IP development.

Mr. Hemingway joins Eagle Harbor Holdings following a distinguished 30 year career as a securities executive. He began his career after graduating from Cornell University with a B.S. 1974, and subsequently studying at NYU for his MBA. Hemingway joined Manufacturers Hanover Trust in 1978 as an Assistant to the Chairman and calling officer in the National Division, leaving to go to Wall Street and Barclays Bank including time in Chicago and at Barclays' headquarters in London. Following his departure from Barclays in 1992, Mr. Hemingway was a private venture capitalist and served on several public company boards. In 2000, Mr. Hemingway joined Cascadia Capital and served in various capacities including CFO, Controller and Financial Operations Principal. Mr. Hemingway has been a Trustee of Trinity-Pawling School since 1985.

Mr. Hemingway stated, "It is very exciting to join Eagle Harbor at a time when its core properties are maturing into an exciting and well received public product. The company's vision & focus have proven to me that we are well poised for the future. I fully expect that we will be announcing some major agreements in the next two quarters to incorporate our IP in automobiles."

"I am extremely excited to have Sam Hemingway join the Eagle Harbor team," said Dan Preston, Eagle Harbor CEO. "Sam's leadership in operations and securities development will help harness our expertise and drive it forward to ensure our continued growth in the intellectual property arena."

Eagle Harbor Holdings (EHH) has rapidly grown into a technology engineering leader developing an array of new technologies from their conceptualization to their commercialization. EHH focuses on the earliest stages of development, building from scratch and taking ideas through to "beta" test to prove commercial viability. EHH focuses on a variety of technology markets such as industrial metals recovery/recycling and automated vehicle situation awareness, to name a few. EHH subsidiaries include MediusTech, Elixsys, VehicleTalk, and Salixsys. More info at [ehhllc.com](http://ehhllc.com).
